

LOSS CONTROL VIDEO LIBRARY

Video Number	Title/Description	Approximate Running Time
101	<i>Driving Motorcoaches</i>	<i>Unknown</i>
Drivers of motor coaches carry the most valuable cargo: people. This video describes many of the responsibilities of motor coach drivers. Some of these responsibilities include meeting federal qualifications, customer relations, maintenance of the vehicle and defensive driving techniques.		
102	<i>Driver/Dispatcher Relations</i>	<i>20 minutes</i>
This video addresses driver/dispatcher relations, specifically covering how verbal and non-verbal communication can be used to work together as a team.		
103	<i>Study Guide to the CDL Exam</i>	<i>50 minutes</i>
To get a CDL, you must pass a knowledge test and you may have to pass a skills and/or a road test. This video is designed to help the driver prepare for the CDL test with the information needed. Also, it is essential he/she study the manual specific to the state who will be issuing the CDL license.		
104	<i>City Driving</i>	<i>20 minutes</i>
City driving is a very critical factor. This video demonstrates how to check vehicles, deliver products safely to their destination, and most importantly, avoiding accidents and injuries.		
105	<i>Night Driving</i>	<i>Unknown</i>
At night, driving on even the most familiar roads can become difficult, even dangerous. This video offers a few safety tips for night driving.		
106	<i>Driving Mountains and Grades</i>	<i>13 minutes</i>
Driving a large vehicle on an upgrade can be quite dangerous. This video shares important points for a safer drive.		
107	<i>Driving Defensively</i>	<i>5 minutes</i>
This video reminds us of the dangers we face in our daily routine of driving and offers safety principles, which can protect us.		
108	<i>Smith Systems: A Better Way</i>	<i>Unknown</i>
Narrated by actor George Kennedy, this video presents the Smith System of Defensive Driving. The key concepts of this program include: space for the vehicle, visibility for the driver, and time to make decisions.		
109	<i>Five Keys to Safety – Small Vehicles</i>	<i>15 minutes</i>
Better and safer driving of small vehicles is portrayed in this video by using a five-step technique.		
110	<i>Five Keys to Safety – Trucks</i>	<i>15 minutes</i>
This video describes a five-step technique that can be used to reinforce truck-driving safety.		

111	<i>Your Cushion for Safety Driving</i>	<i>30 minutes</i>
This video explains the five key factors of safe cushion driving. These factors include aim high in steering, get the big picture, keep your eyes moving, give yourself an out, and make sure others see you.		
112	<i>Watch Your Load</i>	<i>5 minutes</i>
Loose items inside a vehicle can become deadly projectiles during an accident or sudden stop. This video illustrates the dangers of unrestrained cargo.		
113	<i>Underground Storage Tanks</i>	<i>30 minutes</i>
This video explains the provisions of federal laws of underground storage tanks, which are administered by the Environmental Protection Agency. The program overviews the standards associated with flammable liquids and the design of underground storage tanks.		
114	<i>Hazard Perception</i>	<i>15 minutes</i>
Hazard perception is the foundation of defensive driving. This video shows that staying alert while driving will minimize hazards.		
115	<i>The Critical Factors: Blowouts</i>	<i>13 minutes</i>
This video is a training tape that will teach drivers to handle a blowout like a competent professional. It explains the steps a driver should take in the event of a tire's rapid air loss or a blow out.		
116	<i>Winter & Adverse Driving Conditions</i>	<i>13 minutes</i>
This is a descriptive video about handling your vehicle in adverse driving conditions, especially winter driving.		
117	<i>Winter Driving: The Rules Changed</i>	<i>13 minutes</i>
Never ask your rig to do more than it has the traction to do. This simple idea is the basis for good control in winter. This program reveals the most effective concepts applied to winter driving.		
118	<i>Winter Driving Safety</i>	<i>12 minutes</i>
Prevent winter accidents and injuries with this excellent training video. The program includes actual footage of driving techniques. Key points of this video include traction and vehicle control, the importance of good visibility, and defensive driving.		
119	<i>What To Do at the Scene of an Accident</i>	<i>20 minutes</i>
This video explains to the driver how to protect the company, the injured, and the scene, in the case of an accident.		
120	<i>Driver Attitudes</i>	<i>15 minutes</i>
This video is designed for experienced drivers with a combination of both good and bad driving habits. The program introduces a variety of "driver types" and the goal is to make the audience aware of the choices drivers make on a daily basis.		
121	<i>Good Driving is an Attitude</i>	<i>5 minutes</i>
Driving safely is a conscious effort. This video reminds us that good driving begins with a good attitude.		
122	<i>Road Rage and Staying in Control</i>	<i>12 minutes</i>
This is a video relating to aggressive driving and characteristics of road rage. This program also describes some useful tactics, which may help the driver stay in control while on the road.		
123	<i>How to be Safe on the School Bus</i>	<i>Unknown</i>
This program is designed to inform passengers on the precautions they can take to ensure their safety while riding on a school bus.		
124	<i>Protecting Your Child – Danger Zone</i>	<i>12 minutes</i>
The "Danger Zone" is the area ten feet around the school bus where drivers are unable to see or hear children. This video will teach you how to protect your child in the "Danger Zone."		

125	<i>Controlling Slips and Falls</i>	<i>13 minutes</i>
Climbing in and out of the cab can be just as dangerous as driving. This video explains how needless risks can cause injuries as well as precautionary tips to keep accidents from occurring.		
126	<i>The Invisible Killer</i>	<i>5 minutes</i>
Carbon monoxide in the workplace is an invisible killer that strikes without warning. This video explains how to recognize its symptoms and describes first aid procedures.		
127	<i>Charging Up on Battery Safety</i>	<i>5 minutes</i>
Automobile batteries present more danger than you might think. This video outlines battery hazards and reviews the proper safety procedures for their maintenance.		
128	<i>Eye Protection: A New Approach</i>	<i>13 minutes</i>
Several employees face exposure to many types of eye hazards. This video details many of the risk and the protective equipment necessary for eye protection on the job.		
129	<i>Hearing Conservation</i>	<i>12 minutes</i>
This video was created for employees to provide information on how their ears need to be protected to prevent hearing loss.		
130	<i>Workers Enemy # 1</i>	<i>5 minutes</i>
Approximately forty percent of all work related injuries involve the back. This video explains how to avoid back injury through a few common sense practices.		
131	<i>A Shock to the System</i>	<i>5 minutes</i>
The shock that accompanies a serious injury can be just as dangerous as the injury itself. This video outlines the symptoms of shock and reviews the proper treatment.		
132	<i>Workers Compensation: Need to Know</i>	<i>6 minutes</i>
This video is designed to help employers educate their employees about workers' compensation rights, benefits, and procedures.		
133	<i>Taking Control: Return to Work</i>	<i>26 minutes</i>
The goal of this video is to help employers in reducing workers' compensation costs and related litigation, improve their return-to-work rates, improve company morale, comply with the requirements of the Americans with Disabilities Act (ADA), and limit the potential for ADA litigation. This video is appropriate for the following audiences: front line supervisors, managers, human resources professionals, risk managers, safety managers, occupational health nurses and physicians, and claims administrators.		
134	<i>Workers Compensation Fraud</i>	<i>20 minutes</i>
This video explains the ways in which physicians and attorneys have participated in committing workers' compensation fraud.		
135	<i>Preventing Sexual Harassment</i>	<i>26 minutes</i>
This video reviews the responsibilities of the managers, supervisors and employees in preventing and/or reporting sexual harassment in the workplace. It also focuses on management's role to be proactive in preventing sexual harassment and understanding during the investigation of a sexual harassment claim.		
136	<i>Substance Abuse: Reasonable Suspicion</i>	<i>15 minutes</i>
This video helps supervisors in identifying substance abuse by employees in the workplace. It explains the physical signs of substance abuse and explains how performance and behavioral changes may be related to substance abuse. Actual testimonies from ex-substance abusers on their methods of "hiding the habit" are included. Major drug categories and their specific effects (including during withdrawal) are also discussed. The importance of early intervention from the individual and the organization is addressed, as well as recommended techniques on confronting a suspected substance abuser.		
137	<i>The First Few Minutes</i>	<i>5 minutes</i>
When an office fire strikes, every second counts. This video emphasizes the importance of proper planning and knowledge of safety procedures in the event of a fire.		

138	<i>Portrait of a Professional Driver</i>	<i>12 minutes</i>
The best way to prevent and overcome hazards is by knowing your job, vehicle and load. This video exemplifies the habits of a professional driver.		

139	<i>ADA: What Every Manager Must Know</i>	<i>22 minutes</i>
This video portrays a manager's struggles and successes as he tries to comply with the Americans with Disabilities Act (ADA). The myths and etiquette associated with people with disabilities are also displayed within this program. This humorous, yet informative presentation outlines the dos and don'ts of interviewing under the ADA.		

140	<i>Getting Your Back Into It</i>	<i>5 minutes</i>
This video illustrates how the back functions, in order to help avoid painful and costly injuries		

141	<i>Violence in the Workplace</i>	<i>10 minutes</i>
Violence is the second largest cause of deaths in the workplace. This video focuses on defining violence in the workplace, recognizing complacent attitudes, identifying early warning signs of a person who may become violent, general violence prevention concepts, and personal safety and security.		

SCHOOL BUS DRIVER SERIES – ONE OF TWO

SAFE DRIVING [SERIES 142]

142-A	<i>Driving Techniques</i>	<i>13 minutes</i>
Developing proper driving techniques plays an important role in successfully delivering all your passengers to their destinations safely. This video includes such topics as defensive driving, grade and railroad crossing, turning, merging, backing up, and intersections.		

142-B	<i>Using Your Mirrors</i>	<i>Unknown</i>
Mirrors allow the driver to be aware of what is happening behind, to the side, as well as inside the vehicle without taking your eyes of the road for an extended period of time. This video helps the driver become familiar with the types of mirrors in the vehicle, adjusting the mirrors to be the most effective, and how to deal with blind spots.		

142-C	<i>Seeing Hazards</i>	<i>13 minutes</i>
It is very important to be aware of your environment at all times while driving. This video includes valuable information regarding scanning for hazards, positioning your seats and mirrors, effectively using your mirrors, and restricted vision.		

142-D	<i>Defensive Driving</i>	<i>Unknown</i>
Despite the fact that drivers cannot control the conditions of the roads or the actions of other drivers, it is their responsibility to control their own actions as well as anticipate potential hazards. This video provides drivers with all of the critical elements of defensive driving and promotes drivers to establish an internal alarm system, which will further enable the driver to subconsciously drive defensively and anticipate hazards.		

142-E	<i>Passenger Safety</i>	<i>13 minutes</i>
Providing a safe environment for your passengers is an extremely important issue. This video reviews safety practices including entering and exiting the bus, emergency bus evacuations, and setting and managing passenger conduct.		

142-F	<i>Emergency Maneuvers</i>	<i>10 minutes</i>
The best way to handle an emergency is to take precautionary measures to prevent its occurrence, which can be accomplished by recognizing and reacting to hazards. This video informs drivers of the proper responses to an emergency which include recognizing hazards, formulating an emergency plan, and when necessary, putting that plan into action.		

142-G	<i>Accident Procedures</i>	<i>10 minutes</i>
When a crash occurs, it is vital to know exactly what steps need to be taken to ensure the driver's safety and the safety of the school children aboard. This video is designed to serve as basic training for new drivers and the veteran driver on the procedures to follow when an accident occurs.		

142-H	City Driving	10 minutes
Congested roads, detours, reduced reaction time, cramped spaces, distracted pedestrians, constant stopping & starting----these are just a few hazards the school bus driver must face when transporting students through city traffic. This video will provide objectives of handling city traffic.		

SCHOOL BUS DRIVER SERIES – TWO OF TWO DEFENSIVE DRIVING [SERIES 143]

143-A	The Driver Video	Unknown
<ol style="list-style-type: none"> 1. Overview - Presents the topics included in the course. 2. Cushion of Safety - Describes the importance of keeping a cushion of safety around your bus. 3. Situational Driving A. Segment I - Introduces the skills and techniques used in defensive driving in urban areas. B. Segment II - Introduces the skills and techniques used in defensive driving on two-lane and multi-lane highways. 4. Special Considerations - Addresses situations including backing up, railroad crossings, field/athletic trips, adverse weather conditions and driver/student relations. 5. Bus Stop Procedures - Promotes the evaluation of each bus stop situation, alerting other drivers of your intentions, and students' cooperation with safety procedures. 6. Vehicle Inspection - Thoroughly discusses vehicle inspection procedures. 7. Lift Procedures - Presents the proper lift procedures for students who must be transported in a wheelchair. 		

143-B	The Passenger Video	Unknown
Although bus rider education is important for students of all grade levels, this video is designed to offer a first-step program for the riders within the kindergarten to third grade level. The video is designed for use by a safety director, school bus driver, driver trainer or even a classroom teacher.		

143-C	Defensive Driving: Part One	16 minutes
Stressing defensive driving techniques, drivers are shown how to: calculate stopping and safe following distances; use the turning point of their bus to make safe left and right turns; use multiple mirrors; enter a freeway; and back up safely.		

143-D	Defensive Driving: Part Two	11 minutes
This program presents the following defensive driving techniques for common school bus driving situations: driving on hills and winding roads, safely handling curves, spotting potential hazards on and near the roadway, parking on inclines, crossing railroad tracks, and driving at night.		

MOTORCOACH DRIVER SERIES – ONE OF TWO SEVEN MODULES [SERIES 144]

144-A	Module One: The Professional Driver	14 minutes
144-B	Module Two: Trip Inspection	21 minutes
144-C	Module Three: Space Management	13 minutes
144-D	Module Four: Passing & Lane Changing	15 minutes
144-E	Module Five: Backing Basics	11 minutes
144-F	Module Six: Intersection Safety	17 minutes
144-G	Module Seven: Pedestrian Awareness	24 minutes

MOTORCOACH DRIVER SERIES – TWO OF TWO

OPERATOR SOLUTIONS [SERIES 145]

145-A

Passenger Service & Safety

10 Minutes

This video is designed to train the new and seasoned driver to provide excellent service & looking to the safety of the passengers on board. The personal attention to passenger service & safety makes a big difference in your company getting & keeping a traveler's business.

145-B

Speed & Space Management

10 minutes

Speed Management means adjusting the vehicle's speed to current traffic, weather & road conditions. This means allowing an adequate safety cushion between you & the vehicles directly in front, behind & to the sides of your coach. This video provides "what would you do" exercises to help drivers learn speed & space management skills.

145-C

Defensive Driving

10 minutes

Avoiding hazards is entirely up to you. You can't control what others may do. You can't control the condition of the road. There is one thing you can control, and that is how you drive every minute, every day. The objective of this video is to give drivers information on recognized good practices & how to anticipate potentially hazardous situations.

SEVEN MINUTE SERIES

EXTREME EDITION

146-A

Extreme Edition: Rain

7 minutes

This program illustrates the four major problems caused by extreme rain conditions: limited visibility, loss of traction, hydroplaning, and mechanical failures. It also provides guidelines for drivers and presents helpful information about what to do in each situation through the use of actual footage, as well as interviews with drivers.

146-B

Extreme Edition: Rollover

7 minutes

The main causes of rollovers include: driving too fast on ramps, curves, during tight turns, slippery roads or in windy conditions; fatigue or falling asleep at the wheel; inattentive driving; or swerving to avoid something in the roadway. This video describes these causes of rollover accidents as well as the ways in which drivers can prevent falling victim to them.

146-C

Driver Fatigue

7 minutes

This video reveals the effects of fatigue on drivers, the dangers of driving tired, the need for quality sleep, and how to avoid fatigue while driving.

146-D

Driver's Daily Log

7 minutes

Driver's logs, as tedious as they seem to be, are intended to be a function of safety. This video illustrates how completing the log completely on a daily basis makes certain that the driver does not go over the limits of hours of service, thus ensuring that the drivers receives adequate rest between trips.
